NATIONAL HEALTHCARE GROUP POLYCLINICS (WOODLANDS)
SINGAPORE

All doses of the COVID-19 vaccine must be completed to achieve the best possible protection, and for the protection to be as long-lasting as possible. The vaccine has been assessed to be safe for use. However, just like other vaccines, you may experience some side effects such as headache, body aches, tiredness and soreness at the injection site, or fever. These usually get better after 1-3 days and may be a sign that your immune system is making a protective response against COVID-19. The vaccination records are derived from the computerised records of the National Immunisation Registry. This report is for your personal record only. To obtain an official digital vaccination certificate for travel purposes, please visit www.notarise.gov.sg
